

## CAADP DAY AT THE LEGE: Monday Feb 20, 2006 9:30am -noon

Got the day off for President's Day? Come and be part of one of those **defining moments** in lawmaking, where the folks who make the law **meet the folks who are nearly killed by it**. Room 38 (House basement.) We'll hear about current legislation, about the AG's Red Book, and we'll hear **Ray Krone** telling us his own story. You'll get a fact sheet packet, in case you're meeting your own lawmaker. We'll trek to both House and Senate, to be **introduced from the balcony**, where lawmakers can look Ray in the eye, if they dare.

And we'll have a **press conference**, where numbers count, so bring your friends! We'll stand in line and apologize to Ray, and invite lawmakers to do the same. We'll support Ray Krone as he asks lawmakers why this state refuses to **take personal responsibility** and acknowledge that **innocent people end up on Arizona's Death Row**.

Ray is back in Arizona for one day only. **DNA evidence** cleared him, and pointed to the guilty man, in 2002, after **ten years** in Arizona prisons, incl our Death Row. Four years later the infamous Red Book of "Profiles of Death Row Prisoners," updated and issued annually, still lists him as serving a "term of life", **still guilty... who never was guilty at all**.

**Don't miss this. We need it, and Ray deserves it.** Pennsylvania farm boy, honored vet, USPS letter carrier, never any trouble with the law, til someone took a notion that he murdered a woman, and selectively produced "expert" testimony convinced two juries. Like Parade Magazine said, **"It could happen to any of us."** Until the death penalty is abolished.
